It is intended to supplement those resources on matters particular to library faculty. It also includes college/department level policies and procedures mandated by the CBA or UPF. Policies and procedures that merely duplicate either the UPF or the CBA should not be included. Therefore to get the fullest picture of a policy or procedure, librarians are urged to consult the current CBA and UPF for additional guidance.

Except as in Section I-B, 3.3143 below, to carry out its functions, all three Committee members must be present.

3.31 Elections not conducted as part of a Library Faculty meeting

Voting by ballot may include written or electronic ballots, provided the method is secure, private and ensures that:

- Votes cast are anonymous;
- Only those who are entitled to vote actually vote;
- That members vote only once.

3.311 Electronic ballots

3.3111 The Elections Committee may select any method for conducting electronic voting, provided all procedural criteria in I-B 3.31 are met.

3.312 Written ballots

3.3121 A locking ballot box is used for all Library Faculty written ballots.

3.3122 During an election, the Chair of the Elections

Committee shall keep the keys to the ballot box lock.

3.3123 During an election the ballot box is to be kept at a location designated by the Elections Committee.

3.313 Ballot-making and distribution

3.3131 At the start of its term the Elections Committee shall obtain from the Office of the Dean of the Library a list (including e-mail addresses where possible) of tenured and non-tenured, permanent and temporary library faculty. The Committee shall be notified by the Office of the Dean of the Library of changes in the list as they take place.

3.3132 The Elections Committee shall prepare and review ballots for Library Faculty elections. Ballots shall be sent via electronic mail.

3.3133 Ballots used to elect Library Faculty committees shall contain the following information: the purpose of the election, the number of members to be elected, the location of the ballot box, the exact deadline for returning ballots (both date and time of day), and this statement: "Ballots must be clearly marked. If a ballot is not clearly and unambiguously marked, or if it is marked with more than the number of members to be elected, it will be declared invalid. Please vote for no more than (number to be elected)." The ballot should indicate if persons listed have extensive absences (sabbaticals, 10-month year, etc.) scheduled during the committee's term. Ballots used to elect committee members having staggered terms shall state, "[Name] is continuing on the committee in [year 2 or 3] of a [2 or 3] year term."

3.3134 Ballots used to vote to approve or disapprove a question shall clearly describe voter options, and contain this statement: "Ballots must be clearly marked. If a ballot is not clearly and unambiguously marked it will be declared invalid. Please vote either YES to approve ... or NO to disapprove"

3.3135 Ballots received via e-mail should be printed off and this copy used for casting votes. If replying by e-mail, secrecy cannot be maintained since the sender's address is automatically included. Ballots are to be placed in the ballot box in its designated location.

3.3136 For each step of an election, at least a week shall elapse between distribution of ballots and the deadline for return of ballots except in the most extraordinary circumstances. Exceptions may be made, at the discretion of the Elections Committee, if special circumstances warrant a shorter interval. In no case shall the interval for return of ballots be less than forty eight (48) hours. Voters will be responsible for casting their own ballots prior to the announced voting deadline.

3.314 Ballot counting procedures

3.3141 Counting of ballots may not begin until the deadline for return of ballots has passed.

3.3142 Ballots must be counted within a reasonable length of time following the deadline, and generally no later than the next working day.

3.3143 If an Elections Committee member is unable to be present for the counting of ballots, the Elections Committee Chair or their designee will appoint an observer. The remaining two members will proceed with the count.

3.3144 Once counting has begun, no more ballots will be accepted.

3.3145 If a majority of the Elections Committee agrees that a ballot is not clearly and unambiguously marked or if it is marked with more than the number of members to be elected, it will be declared invalid.

3.3146 The count of ballots shall be taken until two counts are identical.

3.3147 Tie votes on a final ballot for election of committees shall be decided by drawing straws or similar means. On ballots to approve or disapprove a tie vote shall be considered disapproval.

3.3148 Election results will be distributed by the Elections Committee Chair to Library Faculty and the Office of the Dean of the Library as soon as possible and not later than five days after the ballots are counted. In the case of nominating elections two-part elections where people are

nominated in one election and chosen from the nominated group in the next election, results will be announced on the information portion of the final ballot.

3.3149 Where applicable, the results will include the names and terms of service, including alternates in ranked order.

3.3150 The Chair of the Elections Committee shall retain custody of all ballots cast during an election. If no formal protest or formal request for a recount is received within one week of announcement of the election results, the ballots will be destroyed. If the results of the election are formally protested or a formal request for recount is received, the ballots will be retained until the protest is resolved.

3.315 Protests

Erroneous ballots or improper election procedures may be protested orally or in writing by any member of the Library Faculty. Normally, the Elections Committee will resolve protests brought to its attention. Extraordinary situations will be referred to the Library Faculty Executive Board. The decision of the Library Faculty Executive Board shall be final.

3.316 Recounts

3.3161 Upon receipt of a written request within three days of the announcement of election results, signed by three or more eligible voters, the Library Faculty Chair will direct the Elections Committee to take one recount. One of the signers shall be appointed by the Library Faculty Chair as an observer for the recount.

3.3162 Results of the recount will be distributed to the Library Faculty by the Elections Committee Chair.

3.32 Elections conducted in Library Faculty meetings

3.321 Voice votes, hand votes, or written ballots may be taken at Library Faculty meetings.

II-C APPOINTMENT OF FULL- AND PART-TIME TEMPORARY FACULTY

1.0 Procedures (Refer to Article 12 of the CBA) (effective 4/7/08)

- 1.1 If the University Library undertakes a search for a temporary position, it must be in full conformity with Nondiscrimination and Equal Opportunity Employment requirements. The University Library, intending to make appointments to temporary Library faculty positions, must undertake annually a search to establish a pool of applicants. This pool may be supplemented by other submitted applications. All temporary appointments must be made from the qualified candidates in this pool. For each appointment, the qualifications of all persons in the pool must be reviewed and the most qualified person available must be appointed.
- 1.2 Library Faculty will make recommendations regarding the need for any anticipated temporary positions.

2.0 Initial Appointments (Refer to Article 12 of the CBA)

- 2.1 The Assistant Librarian rank is used for temporary (non-tenure track) library faculty appointments.
 - 2.11 Temporary library faculty members are hired to carry out a specific library service assignment or range of library service assignments. Assignments may be general, they may employ specialized skills, or they may focus on a specific project.
 - 2.12 Basic expectations concerning skills, knowledge, and experience are identified in a personnel requisition that is prepared once the determination has been made to fill a position.
- 2.2 Entry Requirement: A graduate degree from a library school accredited by the American Library Association or its equivalent is necessary for employment in the Assistant Librarian rank.
- 2.3 When a temporary librarian position is available, the Library Faculty Executive Board, in consultation with the Dean of the Library, will designate an ad-hoc Library Faculty Appointment Committee of 2-3 librarians. The Appointment Committee will screen and interview applicants from the pool, and make recommendations to the Dean of the Library or designee.
- 2.4 Except in extraordinary circumstances, recommendations of a Library Faculty Appointment Committee concerning appointment of temporary

library faculty shall be accepted by the Dean of the Library.

- 2.5 Temporary appointments (both full- and part-time) are not probationary positions. Library faculty do not earn permanence or credit toward tenure no matter how long they serve (refer to CBA).
- 2.6 All part-time Library faculty members must be appointed on a 40 hour week base. That is, those who perform library service for 10 hours per week are hired for .25 time; those who work for 20 hours are hired for .50 time, and so on.

III-E ASSIGNED TIME

1.0 Assigned Time Funded by Outside Resources

Library faculty may be awarded assigned time funding through outside sources such as grants and contracts or through the University by serving as chairs on university committees or teaching courses.

- 1.1 Funds awarded through grants and contracts will be administered through the Foundation and will be subject to the contract terms and regulations.
- 1.2 Funding deposited into the Library's general fund to offset a library faculty member's time will be used to support the librarian, the librarian's department and the Library.
- 1.3 Due to the nature of their work, it is recognized that some librarians will not have the option of a reduced workload. In lieu of a workload reduction the funds may be used to help support the librarian's department or project.
- 1.4 Depending upon the terms of the grant or award the funds may be used to assist the librarian in a variety of ways including, but not limited to: hiring temporary library faculty, hiring student assistants, travel or purchasing

equipment. The librarian will negotiate with the Library Administration to determine the best use of the deposited funds to benefit the librarian and the Library.

2.0 Assigned Time for Research

Library faculty may request to be relieved from some responsibilities to engage in large research projects or activities that require more than 20% of the librarian's time.

- 2.1 When funding is available the Library Administration will call for applications for assigned time for research.
- 2.2 All full time tenured and probationary librarians are eligible to apply.
- 2.3 Research assigned time may be requested for up to 119 hours for the fall, spring or summer semester.
- 2.4 Applications for assigned time will be reviewed and ranked by the library faculty Research and Awards Committee using criteria for professional growth to determine the merit of the proposal.
- 2.5 The committee will forward the ranked applications to the Dean who will make the final award decisions. Denials shall specify the reasons.
- 2.6 Any appeals about decisions as related to assigned time for research should be presented as an email message to the Dean detailing the rationale for reconsideration. The appeal should be filed within five working days of the notification of denial. After reviewing the appeal, the Dean will make a final decision on the proposal.
- 2.7 The library faculty member shall provide a final report to the Dean within one semester following the award semester to provide evidence of the completion and impact of the proposed activities. Faculty are eligible for future research assigned time awards only if previous reports have been filed.
- 2.8 Library faculty may apply for assigned time during semesters in which funding is not available. In such circumstances librarians will work with their division and Library Administration to determine feasibility; review by the Research and Awards Committee is not necessary.

3.0 General Principle

- 3.1 Neither Library Administration nor the library faculty member will shift responsibilities to another librarian in such a way that would adversely impact the work of other librarians or staff.

IV. GUIDELINES FOR REAPPOINTMENT, TENURE, AND PROMOTION LIBRARY

(revised 10/1/12)

IV-A Criteria and Procedures for Reappointment, Tenure, and Promotion of Probationary and Tenured Library Faculty

IV-B Procedures and Criteria for Evaluation of Temporary Library Faculty (Assistant Librarian Rank)

IV-C Procedures and Criteria for Evaluation of Imperial Valley Campus Library Faculty

IV-A CRITERIA AND PROCEDURES FOR REAPPOINTMENT, TENURE, AND PROMOTION OF PROBATIONARY AND TENURED LIBRARY FACULTY (effective 5/10/95) (revised 6/2020)

The Library at San Diego State University shall be the main intellectual resource that supports the university's teaching, research, and service. Library faculty shall be committed to excellence in library service, and to professional research, scholarship, and creative activity that complement and strengthen library service. Contribution to the mission of the Library through active participation in service for San Diego State University shall be considered integral to the duties of library faculty.

1.0 General Performance and Achievement Guidelines

- 1.1 Acceptance of professional responsibilities and high standards of professional conduct are expected in all ranks. Standards for promotion to the rank of Librarian are higher than standards for promotion to Associate Librarian. The scope and depth of performance is what distinguishes one library faculty rank from another.
- 1.2 The evaluative criteria of library faculty members for reappointment, tenure, or promotion shall be in agreement with the requirements of the Collective Bargaining Agreement and consistent with the San Diego State University Policy File.
- 1.3 There are three tenure track librarian ranks--Senior Assistant Librarian, Associate Librarian, and Librarian. (See IV-A-3 for Specific Qualifications)
- 1.4 The Assistant Librarian rank is used for temporary (non-tenure track) librarian appointments.
- 1.5 Tenure-track library faculty at SDSU are evaluated on their achievements and contributions in library service; in professional research, scholarship, and creative activities; and in service activities for the University and community. In presenting their work to peer review committees each candidate shall write a narrative summarizing and integrating work in all three areas.
- 1.6 A library faculty member's activities in professional associations, research, other relevant study (e.g., coursework), and professional service, while essential for balanced professional development, must be seen as having a supportive relationship to the primary emphasis on library service effectiveness.
- 1.7 The candidate's entire professional record while at SDSU shall be considered.

1.71 The normal probationary period shall be six years of full-time probationary service. Probationary faculty may request consideration for tenure earlier than the sixth year if the faculty employee believes they have satisfied the criteria for tenure.

1.72 Work developed or sustained while serving at this university shall be essential to the award of tenure and/or promotion.

1.73 Work as a professional librarian or equivalent position post-MLIS or equivalent degree may be considered. Candidates must demonstrate progressive responsibility for LSE, PG and SER that align with the expectations in the SDSU Library Faculty Policy File. For prior work to be considered in tenure decisions, the work must be at the appropriate professional level.

1.8 Achievements discussed by the candidate shall be supported by appropriate documentation.

2.0 Criteria for Evaluating Performance and Achievement

In order to provide access to information for all clientele, librarians shall be sensitive and responsive to the university's diversity through their library service, scholarship, and research. Probationary and tenured librarians shall be evaluated (a) in achievements and contributions in library service, (b) in research, scholarship, and creative activities, and (c) in service activities for the University and community. In presenting one's work to peer review committees, each candidate shall summarize in accordance with Faculty Advancement guidelines, and when appropriate, integrate, work in all three areas.

2.1 Library Service Effectiveness (70%)

2.11 The primary qualification for reappointment, tenure, or promotion of library faculty is excellence in library service. Library service effectiveness is measured by the expertise demonstrated in assigned areas of responsibility as defined by the RTP guidelines.

2.12 A library faculty member shall be evaluated on such factors as consistency of performance; knowledge of library methods; command of subject area, language, and/or functional responsibilities; judgment, leadership, and creativity; and criteria appropriate to responsibilities. The range of library service activities and the amount of work time allotted to each activity will depend on the nature of the library faculty member's primary assignment(s). In assessing performance, the library faculty member's opportunities to meet library service expectations shall be considered.

- 2.13 Library service activities shall support the goals of the Library and the University.
- 2.2 Professional Growth (20%) (revised 8/25/17)
- 2.21 Continuous growth in librarianship, professional research, scholarship, and/or creative activity is essential. Evidence of this growth includes publications of merit; presentation of professional papers; awards; grants; honors received; and active participation in professional organizations. Research in the field of library science may include the development of theory but more frequently focuses on the reporting of practice.
- 2.22 Active participation in the governance of professional organizations is recognized as a critical component of professional development. This participation can range from local organizations or chapters (for example, SLA SD or CARL interest groups) up to national/international groups (ALA, SLA, IFLA).
- 2.23 Evidence of refereed professional growth of merit is required for promotion and tenure. Quality of the evidence may be identified in several ways, and may include: published or unpublished reviews of a candidate's work; external reviews; number of citations for a published work; journal impact factors; acceptance rates; stature of journal or book editorial boards; and/or reputation of journal or publisher in the field. The candidate shall delineate their role/contribution in all scholarly works.
- 2.231 Refereed Activities: Examples of these activities include, but are not limited to:
- A. An article that undergoes peer-review before acceptance for inclusion in a recognized journal.
 - B. A presentation at a professional conference that undergoes a peer-review prior to acceptance.
 - C. A book or book chapter that is accepted for publication.
 - D. Awarded grants, scholarships, fellowships, awards, etc
- 2.232 A credential or certification earned through review by an authoritative body (e.g. AHIP, certifications, etc).
- 2.3 Service to the University and Community (10%)
- 2.31 Every library faculty member shall assume responsibility for participating in activities that apply the library faculty member's

professional expertise to the benefit of the University and community; department, library, and University committees; student mentoring; offices in University-associated or relevant community organizations; library related service for community groups.

2.32 Long term and exemplary service shall have more than the usual bearing on reappointment, tenure, and promotion decisions.

2.33 Involvement in professional organizations is considered professional growth as per section 2.22 above.

2.4 Credit-Bearing Courses (revised 6/2019)

2.41 Teaching credit-bearing courses, such as University Seminar, a subject course, or a for-credit information literacy course, must be seen as having a supportive relationship to the primary emphasis on library service effectiveness or service to the University and community.

2.42 Documentation to support a credit-bearing course shall include a syllabus and a copy of all verbatim student comments.

3.0 Specific Expectations for Reappointment, Tenure, and Promotion

Acceptance of professional responsibilities and high standards of professional conduct are expected in all ranks. The scope and depth of performance is what distinguishes one library faculty rank from another. In order for candidates to be reappointed, they must meet the expectations of their current rank. In order for candidates to be promoted, they must meet the expectations of the rank for which they are seeking promotion. Decisions concerning tenure shall be based on demonstrated performance and acceptance of professional responsibilities.

3.1 Ranks of Library Faculty (revised 3/7/03)

There are three ranks of librarianship for probationary and tenured librarians: Senior Assistant, Associate, and Full Librarian. In order to be reappointed or promoted, candidates must meet the expectations for the appropriate rank.

3.11 Senior Assistant Librarian

Senior Assistant Librarian is the entry level to the probationary and tenured library faculty ranks. Initially Senior Assistant Librarians acquire professional experience, receive opportunities for professional development, and are provided supervision and guidance designed to

give them knowledge, experience, and increasing competence in campus library activities.

By the end of the second year they are expected to demonstrate knowledge and ability sufficient for independent performance of assigned library service activities, and to give tangible evidence of potential for initiative, judgment, and resourcefulness in carrying out greater responsibilities.

Beyond the first two years library faculty must possess or develop expertise in specific subjects, languages, and/or library functions in support of their library service assignments. The Senior Assistant Librarian must develop a knowledge of library and university goals, policies, and procedures.

To qualify for reappointment and promotion beyond Senior Assistant Librarian, the library faculty member must demonstrate expertise in library service assignments. The professional growth record must also take shape and result in documentable activities and products. Evidence of refereed professional growth is required.

Service to the university and the community will generally involve participation on library unit and library-wide committees and work groups.

The library faculty member must show evidence of functioning at the Associate Librarian level to be recommended for award of tenure and promotion. By the end of their sixth probationary year, library faculty initially appointed to this rank must have been recommended for award of tenure and promoted beyond the Senior Assistant Librarian rank.

3.12 Associate Librarian

Associate Librarian is the rank in which demonstrated skill, knowledge, initiative, innovation, independence, expert judgment, and consistent effectiveness in performing the assigned range of library service activities is expected. In addition to the requirements for Senior Assistant Librarian, Associate Librarians must maintain and, as appropriate, enhance their subject, language, and/or functional expertise, and they must have thorough knowledge of library research methods, of the needs of academic programs, and of procedures and problems of university-level public, technical, and/or access services. Associate Librarians may or may not have supervisory responsibility, depending on the nature of their position.

In this rank, meritorious professional growth is expected. Evidence of

refereed professional growth is required. Typically, Associate Librarians contribute to the profession through participation in academic and scholarly activities relevant to librarianship or their subject expertise; leadership roles in and/or active participation in the work of major professional organizations; authoring substantive publications; securing grants; applying and communicating the results of a planned program of study. Service to the university and the community will generally involve participation on library committees, liaison with colleagues on campus or system-wide, or library related service to the community.

To be considered for promotion beyond Associate Librarian, the library faculty member shall normally have served four years in the same rank/classification.

3.13 Librarian

The Librarian rank emphasizes competence, expertise, leadership, scholarship, creativity, reputation in the library community, and overall achievement during one's career at SDSU. In addition to the requirements for Associate Librarian and depending on the nature of the assignment, this rank characteristically involves responsibility for major projects or for ongoing library assignments requiring a high level of professional skill; evaluating, enhancing, or extending services and applying innovations; excellence in overall performance; excellence in management or supervision.

Professional growth contributions may include: ongoing active participation in professional organizations (typically at the state or national level), innovative library contributions or applications, recognition as a resource person in the library and/or the profession, publications of merit in the field of librarianship or one's subject expertise, securing extramural grants or cooperative agreements with other libraries. Service to the university and the community will generally include positions of leadership and responsibility on library, campus, and/or system-wide committees or library related service to the community.

Only tenured library faculty or those selected for simultaneous award of tenure may be promoted to this rank.

3.2 Reappointment

In order for candidates to be reappointed, they must meet the expectations of their current rank (see section above for descriptions of ranks)

3.3 Promotion (revised 10/1/12)

3.31 Promotion to Associate Librarian

To be promoted from the Senior Assistant to Associate Librarian rank, candidates must meet the expectations for an Associate Librarian (see section above for expectations of an Associate Librarian)

3.32 Promotion to Librarian

To be promoted from the Associate to Librarian rank, candidates must meet the expectations for a Librarian (see section above for expectations of a Librarian)

3.33 Eligibility for Promotion (revised 6/2019)

3.331 Probationary library faculty members shall normally be considered for promotion at the same time as they are considered for tenure.

3.332 A probationary library faculty member shall not be promoted beyond the rank of associate librarian.

3.333 Tenured library faculty members shall normally be considered for promotion after they have served four years in the same rank/classification.

3.334 Work completed after the **start** of your last review that was not considered during that review is eligible for consideration in promotion decisions.

3.335 Work completed in the last 5 years may be included as significant accomplishments. However, the curriculum vita is cumulative.

3.336 In some circumstances, a library faculty member may be considered for promotion prior to serving four years in the same rank/classification.

4.0 Types of Evaluation

There are two types of evaluation: Periodic Evaluation and Performance Review.

4.1 Periodic Evaluation (revised 6/2019)

Periodic Evaluations are conducted for Probationary, Post-Tenure, and

Temporary faculty according to the timeline specified by the Office of Faculty Advancement. Temporary faculty complete a periodic evaluation every year unless they are on a 3-year contract in which case a periodic evaluation is completed every 3 years. Faculty are notified of their specific requirements by Library Administration.

- 4.11 A periodic evaluation of a library faculty member shall normally be required for the following purposes:
 - 4.111 Evaluation of tenured library faculty members who have not been reviewed for promotion during the past five years. (See IV-A, 4.14 .
 - 4.112 Evaluation of probationary library faculty members not subject to a performance review. (For performance review, see IV-A, 4.2).
 - 4.113 Evaluation of temporary library faculty members. (See IV-B).
 - 4.114 Periodic evaluations shall be conducted by a Peer Review Committee and the Dean of the Library or designee.
- 4.12 Documentation Requirements (effective 11/91 and 2/28/95 – sections combined) (revised 6/2019)
 - 4.121 The library faculty member to be evaluated must submit a Periodic Evaluation in accordance with Faculty Advancement.
 - 4.122 The library faculty member being evaluated shall succinctly summarize on the Periodic Evaluation Form activities and accomplishments in each of the required evaluation criteria categories. Summaries shall provide sufficient information and detail to enable the Peer Review Committee to evaluate the candidate relative to the qualifications for that rank.
 - 4.123 For post-tenure review, only the last five (5) years will be covered. For probationary library faculty, the period since the initial appointment shall be covered. For temporary library faculty, the period since the last evaluation or, if none has been done, since the initial appointment shall be covered.
 - 4.124 The completed Periodic Evaluation Form shall conform to the requirements on the Office of Faculty Advancement website for each library faculty rank.

- 4.125 Peer evaluations shall address the effectiveness of the library faculty member's performance during the review period.
- 4.126 Peer evaluations shall be addressed to the Library Faculty Personnel Committee. Evaluations may either be given directly to the library faculty member or sent to the Library Faculty Personnel Committee.
- 4.127 Supplementary or one-of-a-kind file material shall not be included.

4.13 Periodic Evaluation of Probationary Tenure-Track Library Faculty (effective 6/1/00)

4.131 Periodic Evaluation Cycle

Probationary library faculty are subject to a Periodic Evaluation rather than a Performance Review in years 2, 4, and 5 of their tenure track appointment. The periodic evaluation provides an opportunity to evaluate the strengths and weaknesses of a candidate without having to make a personnel recommendation.

4.132 Scheduling of Periodic Evaluations

- 4.1321 Periodic evaluations shall be done for all probationary library faculty members who initially receive a three-year appointment.
- 4.1322 The evaluations will generally be conducted according to the timeline established by Faculty Advancement.
- 4.1323 As soon as possible after the Fall semester deadline for submittal of the Working Personnel Action File (WPAF) has passed, and no later than the timeline established by Faculty Advancement, the Office of the Dean of the Library and the Peer Review Committee shall jointly announce the names of probationary library faculty members scheduled for periodic evaluation in the current academic year, issue a timetable for the review cycle, and send individual notifications to library faculty members scheduled for review.

4.1324 The timetable must include deadlines for submittal of the periodic evaluation form, information from faculty and others, the Peer Review Committee's evaluation, and the evaluation by the Dean of the Library or designee.

4.14 Periodic Evaluation of Tenured Library Faculty (Post-tenure Review) (effective 5/18/98)

4.141 Post-tenure Review Cycle

To maintain and improve the effectiveness of their performance, tenured library faculty members shall be subject to periodic evaluation at intervals of no greater than five years.

4.142 Scheduling of Post-Tenure Reviews (effective 6/1/00)

4.1421 Regular performance evaluations shall be done for eligible tenured library faculty members once every five years. In extraordinary circumstances, performance evaluations may be done more frequently.

4.1422 The evaluations will generally be conducted during the Spring semester.

4.1423 The Office of the Dean of the Library shall maintain, and supply when needed to the Peer Review Committee, up-to-date lists of all tenured library faculty members. The lists shall be arranged in chronological order by the date of the last performance review or periodic evaluation, and by tenure date.

4.1424 The Office of the Dean of the Library shall also make the lists available to any library faculty member who submits a written request to see them.

4.1425 Library faculty participating in pre-retirement reductions in time base will be included in the review schedule.

4.1426 As soon as possible after the Fall semester deadline for submittal of the Working Personnel Action File (WPAF) has passed, and no later than the timeline established by the Faculty Advancement, the Office of

the Dean of the Library and the Peer Review Committee shall jointly announce the names of library faculty members scheduled for post-tenure review in the current academic year, issue a timetable for the review cycle, and send individual notifications to library faculty members scheduled for review.

4.1427 The timetable must include deadlines for submittal of the periodic evaluation form, information from faculty and others, the Peer Review Committee's evaluation, the evaluation by the Dean of the Library or designee, and the meetings to discuss the evaluation.

4.15 Periodic Evaluation of Temporary Library Faculty See section:IV-B.

4.2 Performance Review for Tenure and/or Promotion (effective 10/11/91)

A Performance Review is completed for probationary faculty during the tenure process in years 3 and 6. Faculty may choose to complete a performance review in any year they wish to seek tenure and/or promotion. Faculty are notified of their specific requirements by Library Administration. This entails completion of a Working Personnel Action File (WPAF) document by the library faculty member, and performance evaluation by the Peer Review Committee resulting in a recommendation.

The WPAF, which includes the Personnel Data Summary (PDS) and the write-ups and evidence (formerly the One-of-a-kind (OAK) file), is the file specifically assembled for use in a given performance review evaluation cycle. That file shall include all required forms and documents, all information specifically provided by the library faculty member being evaluated, and information provided by faculty, students, and academic administrators, when appropriate. It shall also include all library faculty and administrative level evaluations/recommendations from the current cycle, and all rebuttal statements and responses submitted.

4.22 Performance Review Cycle (revised 8/25/17)

A Performance Review for a library faculty member shall normally be required for the following purposes:

- a. Reappointment of a probationary library faculty member (for procedures, see Section IV-A, 3.3);
- b. Award of tenure (for procedures, see Section IV-A, 3.3);

- c. Promotion (for procedures, see Section IV-A, 3.4); and
- d. Post-tenure evaluation.

4.23 Documentation

For any evaluation cycle, information may be submitted directly to the review committee by faculty, students (including teaching evaluations), academic administrators, and the President. This evaluative feedback may be submitted prior to the closing date of the WPAF. Guidelines are included in section 4.235.

4.231 Formal Peer Evaluation Submitted to the Review Committee

For reviews of library faculty the candidate will solicit formal written evaluations from two tenured library faculty colleagues containing their association with the candidate, an evaluation of the candidate's work at their current rank, comments regarding the candidate's strengths with specific examples and additional comments about areas of improvement with specific examples. The template for this feedback is found on the Faculty Advancement website.

4.232 Candidate's Responsibilities for Communication and Documentation

Critical peer evaluation is essential and an indicator of one's acceptance of professional responsibility. It is the candidate's responsibility to make their colleagues aware of their professional activities.

4.233 Documentation Beyond the Formal Peer Evaluation

The individual who is subject to, or requesting, a performance review is responsible for preparing a Personnel Data Summary and assembling the requisite supporting information. (For specifics see the Faculty Advancement website).

Supporting information will normally include evaluative letters from library peers and/or assessments by students, faculty, peers in other libraries, and other appropriate persons who have had adequate opportunity to evaluate aspects of the candidate's performance.

Professional contributions, creative activities, etc., should be documented by inclusion of programs, papers, letters, official communications, etc., that give an indication of one's role.

Scholarship or research that results in publications, presentations, or similar productions shall be documented by inclusion of copies of the work. Publishers' letters of acceptance, and reviews or evaluations of these productions, should also be included.

Other activities should be documented by letters of appointment, documents prepared, indication of offices held, etc.

4.234 Peer Responsibilities for Communication and Documentation

4.2341 Feedback following an activity

Faculty colleagues are encouraged to take an interest in the activities of colleagues and provide written feedback on presentations, lectures, publications, reports, etc., at the time of the event.

4.235 Guidelines for Evaluative Feedback

4.2351 Evaluation letters should be balanced, candid, and concise. Letters should also be as specific and as detailed as possible about the candidate's performance and include reasonable suggestions for improvement in weak areas. Evaluators should both supply the evaluative information and explicitly identify the basis for the conclusions reached.

4.2352 Evaluators must assess the value of the candidate's contribution(s). Evaluation of any activity or contribution must be qualitative, not merely enumerative, and should indicate how the contribution compares with the activity and quality appropriate to the library faculty member's rank and responsibilities.

4.2353 Evaluation of library service effectiveness is based on first hand observation or knowledge of aspects of the reviewee's performance.

4.2354 Evaluation of professional growth activity, based on the peer reviewer's knowledge of the professional growth arena or specific activity, is expected. In evaluating

participation in organizations or external publications, comment on both the contribution itself and the sponsoring organization, journal, etc.

4.2355 Evaluation of service for the university or the community, based on the peer reviewer's knowledge of the reviewee's participation and contributions, is also recommended.

- 5.7 Personnel Action File (revised 6/1/01)

IV-B PROCEDURES AND CRITERIA FOR EVALUATION OF TEMPORARY LIBRARY FACULTY (ASSISTANT LIBRARIAN RANK) (Revised 6/2019)

1.0 Procedures (effective 6/1/00)

1.1 Evaluation Cycle

Temporary faculty are evaluated regularly to support library service effectiveness and to provide information for appointment and work assignment decisions.

Temporary faculty members on a 1-year contract must undergo an annual periodic evaluation.

Temporary faculty members requesting an initial 3-year contract must undergo a cumulative periodic evaluation, after an entire 6-year period has been worked on a single campus in a single department to become eligible.

Temporary faculty members requesting a subsequent 3-year contract must undergo a cumulative periodic evaluation of the entire 3-year appointment, prior to reappointment.

Full-time or part-time temporary library faculty members appointed for a period that is less than one year in length shall be evaluated at the discretion of the Dean of the Library or a designee. The employee may request an evaluation.

1.2 Scheduling of Periodic Evaluations

1.21 The evaluations will generally be conducted according to the timeline established by Faculty Advancement.

1.22 The Office of the Dean of the Library shall provide the names of temporary library faculty subject to review to the appropriate faculty committee. Review shall be conducted by a committee of tenured faculty members (minimum of 3 persons) and by the individual's assigned administrator.

1.23 The Office of the Dean of the Library shall announce the names of temporary library faculty members scheduled for periodic or special evaluation, shall communicate the timetable for the review cycle, and shall send individual notifications, evaluation criteria and procedures to temporary library faculty members scheduled for review in a timely manner.

- 1.24 A copy of the evaluation shall be provided to the temporary faculty member and filed in the official Personnel Action File (PAF) in the Office of the Dean of the Library.
- 1.25 Evaluation information, timetables and forms are available on the Faculty Advancement website.

2.0 Criteria for Evaluation (effective 5/10/95)

- 2.1 Evaluation of a temporary library faculty member subject to periodic evaluation shall be based on library service effectiveness. The evaluation shall rate the temporary faculty member as either satisfactory or unsatisfactory in accordance with the Collective Bargaining Agreement.
- 2.11 Temporary library faculty members' performance in their specific library service assignments shall be evaluated on the same factors as tenure track/tenured library faculty. (See IV-A, 2.1 for Library Service Effectiveness evaluation criteria.)
- 2.12 Professional growth and/or service for the university and the community are not normally expected of temporary library faculty. If evidence of professional growth or service for the university and the community are included on the individual's Periodic Evaluation Form or in the information submitted, evaluation of these categories is at the discretion of the Committee.

3.0 Documentation for Periodic Evaluation (effective 11/91, revised 6/2019)

- 3.1 For periodic evaluation, the temporary library faculty member being evaluated shall succinctly summarize activities and accomplishments falling within the Library Service Effectiveness category. Summaries shall provide sufficient information and detail to enable the Committee to evaluate the candidate relative to the qualifications for that rank.
- 3.2 Evaluative feedback from the library faculty member responsible for the area(s) in which the candidate works are required. Additional supporting documentation guidelines are available from Faculty Advancement.
- 3.3 The period since the last evaluation or, if none has been done, since the initial appointment shall be covered.
